ARMINIAN SKELETON.

Subscriptions are received at the Book Store of
COTTON and STEWART, for a BOOK en-
titled,

THE SKELETONS:

Or, the Arminian Anatomized, and
The Carnal Preacher Dissected.

In two Parts.

Part I. The Arminian, or doctrine of Univer-
sal Charity pursued, taken, examined, tried, con-
demned, executed, and anatomized.

Part II. The Carnal Preacher Dissected,
with comments on several dark passages of scrip-
ture. In a series of letters, written at various
times to friends in the country.

Conditions, &c. are left at the above
Store.

It is the opinion of several respectable clergy-
men, that the above book contains the ground
work and principles of genuine piety, as it mani-
festly proves, from the scriptures of truth, that
the doctrine of free will and universal redemption
is unfounded.

(Continued.)

THIS Democratic writer (Franklin) who accuses the Federal press of scurrility and calumny, must indeed be proof against all shame. I do not pretend to say that there have not been on the Federal side some scurrility, and more is the shame for those that used it: But compared to the abominable calumnies of the Democratic press, they were innocent, polite, and gentle; and when the objects of the abuse on both sides are compared, and the grounds of both are examined, those on the Federal side almost vanish into nothing. The words of the potent Peter Porcupine himself, poured forth upon open Jacobins, were milk and honey, or as Sancho Panca says, "tarts and cheese-cakes," when put in comparison with the purchased and the rewarded calumnies of General Washington, by the strong pen of Callender; yet whose invectives, when compared with the blackguardism poured on that illustrious man from a print, the name of which it is pollution to mention, were as the brilliant satire of the gigantic Curran to the effusions of the most voluble and furious drab of Billingsgate. A charge of scurrility comes with a good grace indeed from the same party that sent the *Prospect Before Us* into the world. A charge of calumny well becomes that party which vilified and begrimed the immortal champion of our rights and founder of our freedom, Washington, with all the slanderous filth which industrious malice could pump from polluted and poisonous hearts. On the abdication of General Washington, the press assassin of a party exclaims thus:

The following character of Gen. Washing-
ton, appeared in the *Aurora* on March 6,
1797.

"LORD, now lettest thou thy servant de-
part in peace, for mine eyes have seen thy
salvation," was the pious ejaculation of a
man who beheld a flood of happiness rush-
ing in upon mankind if ever there was a
time that would licence the reiteration of
the exclamation, that time is now arrived:
For the man who is the source of all the
misfortunes of our country is this day re-
duced to a level with his fellow citizens, and
is no longer possessed of power to multiply
evils upon the United States. If ever there
was a period for rejoicing, this is the mo-
ment; every heart in unison with the free-
dom and happiness of the people, ought to
beat high with exultation, that the name of
Washington from this day ceases to give a
currency to political iniquity, and to legalize
corruption—A new era is now opening
upon us, a new era which promises much
to the people; for public measures must
now stand upon their own merits, and ne-
farious projects can no longer be supported
by a name. When a retrospect is taken
of the Washingtonian administration for
eight years, it is a subject of the greatest
astonishment, that a single individual
should have cancelled the principles of re-
publicanism in an enlightened people just
emerged from the gulf of despotism, and
should have carried his designs against the
public liberty so far, as to have put in
jeopardy its very existence:—such, how-
ever, are the facts, and with these staring
us in the face, this day ought to be a jubilee
in the United States."

The party read it, approve it, continue
to support the calumniator, to circulate his
paper, and to diffuse his principles. The
calumny is verbatim disseminated through
the union, in other prints, and yet persons
of that party have the nerve to come for-
ward and talk of scurrility and calumny.
Matchless effrontery! insolence, injustice,
falsehood, where will you be content to
stop, when you thus break down all the
fences which even the most abandoned and
impudent were once wont to prescribe to
themselves! And here Mr. Editor, I beg
you will allow me to make a remark. It
has been reported that some persons of that
party affected to take offence at the men-
tion made by you of General Washington,
in your much spoken of eulogy on gen-
eral Hamilton. According to the com-
mon rules of reasoning, I should conceive
it impossible that such a feeling could be
even affected or pretended; because your
observations on our illustrious Washing-
ton, were panegyric of the most refined
kind. Who the persons are who expressed
dissatisfaction at your words on that oc-
casion I know not; can they possibly be
of the school of Washington? I should
think not. But would it not be a very ex-
traordinary thing if those very persons
should have given to that very paper which
first issued the calumny above extracted
the support and encouragement of their
subscription? Says the writer—"Party

spirit has raged with so much violence at
different times ever since the organization
of the new Government could hardly be said to
exist among us until congress by an injudi-
cious act (to give it no harsher term) cre-
ated an enormous public debt, &c. &c."

That an assertion so unfounded should
find its way into the National Intelligen-
cer, which is under the auspices of per-
sons who must know better, and ought to
be correct, at least in their statement of
facts, surprises me. There are prints in
the Union in which I should not be sur-
prised to see it asserted, that Louis the
XVth came from the grave, and knock-
ed down Bonaparte with a splinter of his
coffin; but of the paper alluded to I had
not such an opinion. Distortion of cir-
cumstances, sophistical arguments, and
unjust conclusions, drawn from false pre-
mises, are one kind of thing: unfounded
assertions, another. If the writer does
not know can the editor of that paper, or
the patron of that editor, have forgotten,
that party spirit raged from the first start-
ing of the question of a Federal Consti-
tution, through the whole discussion of it,
with equal violence to this day. Can they
have already lost all recollection of the ge-
neral agitation of the country on that oc-
casion? Can they have forgotten, or do
they only pretend to forget, that the Pre-
sident of the New York Convention declar-
ed, that if certain qualifications, propos-
ed by his party, were not agreed to, he
and they would carry their opposition to
the extreme; and did not report say, that
even an appeal to the sword was threaten-
ed? How in the name of God they could
think of speaking in direct contradiction
to a fact which every man of twenty five
years of age in America must remember,
is to me astonishing.

REMEMBRANCER.

MESSAGE

From the president of the United States
to congress on the subject of the destruc-
tion of the Frigate Philadelphia.

To the House of Representatives of the U-
nited States.

Agreeably to your resolution of the 9th
instant, I now lay before you a statement
of the circumstances attending the destruc-
tion of the frigate Philadelphia, with the
names of the officers and the number of
men employed on the occasion; to which
I have to add that lieutenant Decatur was
thereupon advanced to be captain in the
navy of the United States.

Nov. 15, 1804.

Navy Department, Nov. 13, 1804.

SIR,
Agreeably to your letter of the 10 inst.
and the resolution of the House of Re-
presentatives of the 9th inst. therewith sent
to me. I have the honor to enclose a state-
ment of the circumstances attending the
destruction of the frigate Philadelphia,
with the names of the officers and the num-
ber of men employed on the occasion.

I have the honor to be,

With great respect,

Sir, your most obedient ser't.

ROBERT SMITH.

President of the United States.

Statement of the circumstances attending the
destruction of the frigate Philadelphia,
with the names of the officers, and the
number of men employed on the occasion
as laid before the president by the Secre-
tary of the Navy, November 13, 1804.

On the 31st January, 1804, commodore
Preble, lying with his squadron in the har-
bor of Syracuse, gave orders to lieutenant
Charles Stewart, commanding the brig Sy-
ren of sixteen guns, and to lieutenant Ste-
phen Decatur, jun. commanding the ketch
Intrepid of four guns and seventy five
men, to proceed to Tripoli, and to destroy
the frigate Philadelphia of forty four guns,
then lying in the harbour of Tripoli. Lieu-
tenant Decatur had orders to enter the har-
bour in the night, board and set fire to the
Philadelphia, and lieutenant Stewart was
ordered to take the best possible position
without the harbor, to cover the retreat.

Under these orders they proceeded im-
mediately to the coast of Tripoli, but ow-
ing to very heavy gales of wind, that usual-
ly prevail there in the winter season, the
enterprise could not be undertaken until
the 16th February, when lieutenant Stew-
art having taken the best possible position
to effect the object of his instructions,
Lieutenant Decatur at 7 o'clock in the
night, entered the harbour of Tripoli,
boarded and took possession of the Phila-
delphia.

The frigate at the time she was boarded,
had all her guns mounted and charged
and lying within half gun shot of the Ba-
shaw's castle and of his principal battery.

Two Tripolitan cruisers were lying with-
in two cables length on the starboard quar-
ter, and several gun boats within half gun
shot of the starboard bow—and all the bat-
teries upon shore were opened upon the
assailants; about twenty men of the Phi-
ladelphia were killed, a large boat full got
off, and one man was made prison-
er.

After having gained possession of the
frigate, lieutenant Decatur set fire to her
store rooms, gun room, cockpit, and birth
deck, and with a firmness highly honorable
to him, his officers and men, they remain-
ed on board until the flames had issued
from the dore of the gun deck, and they
continued in the ketch along side the fri-
gate until the fire had communicated to
her rigging and tops.

Lieutenant Decatur did not loose a
man, and had but one slightly wound-
ed.

The following is a list of the officers, and the
number of men, employed in the destruc-
tion of the Philadelphia.

Lieutenant Stephen Decatur, Junr.	
James Lawrence,	Lieutenants.
Joseph Bainbridge,	
Jonathan Thorn,	
Lewis German,	Surgeon.
Ralph Izard,	Midshipmen.
John Bowie,	
Charles Morris,	
Alexander Laws,	
John Davis,	
Thos M Donough,	Pilot.
T's Oakly Anderson,	
Mr. — Salvador,	Men.

Lieutenant Decatur has stated, that all
his officers and men behaved with the
greatest coolness and intrepidity; and
commodore Preble has informed me that
lieutenant Stewart's conduct was judicious
and meritorious.

Respectfully submitted.

R. SMITH.

REPORT.

The committee of commerce and manu-
factures respectfully submit their re-
port on the memorial of the president
and directors of the New York Slate
Company.

Two associations of individuals in the
state of New York were formed, one in
the year 1800 and the other in 1803, for
the purpose of exploring and opening
quarries of slate, within Dutchess county
in the said state. After expending con-
siderable capital, they state that they have
been successful in finding slate of an excel-
lent quality. This they have brought to
market in great quantities, and offered for
sale at a reduced price of fifty per cent.
They allege that they are capable of sup-
plying the whole domestic demand for
this useful article of building, and could
easily furnish slate of various sizes and
thicknesses, for exportation. But they
complain of the rivalry and competition
of the importers of slate from foreign coun-
tries; who by means of superior numbers
and capitals, can without sensible incon-
venience submit to temporary losses, un-
dersell the petitioners, and interrupt the
regular course of their domestic industry.
For the sake of preventing these discour-
aging embarrassments, they solicit an in-
crease of impost on the importation of
slate from foreign parts.

In the preamble to the act "making
further provision for the payment of the
debts of the United States," passed Au-
gust 10th, 1790, it is declared that duties
were laid on goods, wares, and merchan-
dize imported, for the discharge of the
debts of the United States, and the encour-
agement and protection of manufactures,
by the first section of that act, slate was
charged with a duty of 10 per cent. ad va-
lorem. Afterwards by the act, "for rais-
ing a further sum of money for the pro-
tection of the frontiers, and for other pur-
poses therein mentioned," passed May 2d,
1792, an additional 2 1-2 per cent. was
added; but this ceased at the end of two
years by its own limitation. Then again
an additional five per cent. ad valorem was
laid upon imported slate, by the first sec-
tion of the "act for laying additional du-
ties on goods, wares, and merchandize,
imported into the United States," passed
June 7th, 1794.

A further impost of 2 1-2 per cent. was
laid by the first section of the "act further
to protect the commerce and seamen of the
United States against the Barbary pow-
ers," passed March 25th, 1804, upon all
goods, wares, and merchandize chargea-
ble with an ad valorem duty. Slate comes
within this class of articles. The money
collected goes to "the Mediterranean
fund;" and this additional 2 1-2 per cent.
will not be discontinued until three months.

after a ratification of a treaty of peace with Tripoli.

Hence it appears that the existing duties on slate, imported from foreign parts, amount to 17 1-2 per cent. if imported in ships or vessels of the United States; and computing the 10 per cent. additional, amount to 19 1-4 per cent. upon all slate imported in vessels not of the United States. When to these are added freight, commission, insurance, and the other heavy charges on such a bulky article, it would seem that a sufficient protecting duty was already imposed to encourage this species of domestic manufacture. The committee are inclined to think it would be impolitic to increase the impost to a prohibitory amount.

The committee cannot forbear to express a sentiment of pleasure on this discovery of an inexhaustible quantity of an incombustible material for covering buildings. The increasing scarcity of timber, and the prevailing custom of constructing fire proof houses added to the more excellent, it may be said unequalled quality and abundance of the slate of New York may be expected in a short time to accomplish the wishes of the petitioners, and give the home made slate a complete ascendancy in the market. While therefore they rejoice at the detection of this new resource, and of its proportionally increased independence, they forbear to recommend any augmentation of impost upon its introduction from abroad.

On the whole, it is the opinion of the committee, that any additional duty upon imported slate, would at this time be inexpedient.

MARRIED, last evening by the Revd Mr. Muir, Mr. JOHN CHRISTMAN. (of Jefferson county,) to ELIZABETH BARR, of this place.

Alexandria, November 24.

At a numerous meeting, convened at the Court House this evening agreeable to public notice, to take into consideration the propriety of addressing a petition to the President of the United States, to remove Francis Peyton from the command of the Militia of this town and county.

A motion was made and concurred in, that Elisha Cullen Dick be Chairman of this meeting:

Whereupon, it was unanimously

RESOLVED:

1st. That it is the opinion of this Meeting, that the Militia of Alexandria, has been much depreciated, and disorganized during the operation of its present estab-

lishment.

2d. That it is the opinion of this Meeting, that Lieutenant Col. Francis Peyton, is the principal cause thereof, and is an improper person to command a Militia of Free Men.

3d. That Robert Young, Peter Wise, jun. John Pittman, and Elisha Cullen Dick, be a Committee to draft a Petition to the President of the United States, praying him, to remove Col. Francis Peyton from his said command; and that they cause it to be communicated in any manner they may deem proper.

4th. Resolved, That the foregoing proceedings be published.

ELISHA C. DICK, Chairman.

Kentucky.—On the 2d instant, the election for electors was held in this state, and but thinly attended. The federalists made no opposition; but there was much division among the republicans respecting their candidates. In fact, had the candidates been republicans and federalists, they could not have more strongly exerted themselves to lessen the influence of each other.

The result of the Kentucky election, there is scarcely a necessity for anticipating—there is no doubt but eight friends to Jefferson and Clinton have been chosen Electors.

Post-Office.—We understand, says the Boston Centinel, that the Mail for the city of Philadelphia, made up at the Post Office in this town, on the 1st day of the present month, is missing. It is presumed it was stolen on the night following that day, when the Office was broke open. The Mail was uncommonly small.

A Case for the Gentlemen of the Law.

Will Webster, of Stamford sold as good a cup of Ale, as ever mantled in a beer glass. He was bred a baker, and as is common in the country, he always sold bread; and it was as usual for working people to call for a penny loaf as a pennyworth of ale at his house.

A man came one day for six penny loaves. Webster served him as he sat in the drinking room; and after they had been delivered to him he said, "Master Webster, take one of you loaves back, I'll have but five, and bring me a pennyworth of ale, that will make up the sixpence, all the same you know." The ale was brought him, and he gave him a loaf for it, drank it and called for another, and another, and another, until he had exchanged the six loaves for six penny-worths of ale; then rising up, said, Mary must do with brown bread which he believed would be quite as good for her health; and was deliberately marching off, when the landlord desired to be paid. "Paid for what?" said the fellow. "For my bread," answered the landlord. "Your bread—have you not had it again?" "Why then pay me for the ale," said the publican. "I gave you bread for it," answered the defendant. "That is true," answered Boniface, "yet

somehow I think I am cheated, but if ever you bother me again, call me cut, that's all—you shall always pay for every thing as I bring it in."

Law Query. Upon what can the Landlord bring his action?

A PROPOSAL.

By William Young Birch & Abraham Small,

OF THE CITY OF PHILADELPHIA,

For publishing by Subscription, THAT CELEBRATED WORK

GIBBON'S HISTORY

The Decline and Fall of the Roman Empire.

TOGETHER WITH

MEMOIRS OF THE LIFE AND WRITINGS OF THE AUTHOR.

NO Book could be offered, which stands in less need of encomium and recommendation. It has been read in almost every European language. The history of the long and interesting period from the age of the Antonines to the taking of Constantinople, and the death of Mahomet the 11. is no where else to be found in the shape of regular and well arranged history. The publishers presume to hope, that they do a service to their country in giving an edition of it from the American press. They will briefly speak of their intentions, and the superiority of this edition.

1. It will be the most complete Edition of Gibbon extant—because it will be enriched with the Memoirs of his life and writings, written by himself.—This will be an addition to the London copy of nearly 200 pages.

2. It will be about one third cheaper than the London copy.

3. It will be executed in the best style.—The Maps will contain both the ancient and modern name of the places laid down, and will be much superior to those in the London copy; they will also be executed in the manner of the late improvement in the art of engraving maps.—The publishers with confidence, recommend to the public an inspection of the books published by them, within the last three years.—They are, Russell's Ancient and Modern Europe, 7 vol. The Domestic Encyclopedia, 5 volumes, and Tucker's Blackstone, 5 vols. They promise not to degenerate.

CONDITIONS.

1. It shall be printed from the last London edition, and be published in Eight Octavo Volumes.

2. It shall be enriched with two whole sheet Maps. One of the Eastern, and the other of the Western part of the Roman Empire. A Map of the parts of Europe and Asia, adjacent to Constantinople, and an elegant engraved head of the Author.

3. It shall be delivered to those Subscribers who take it in volumes, at two dollars per volume, in boards.

Those who wait for the completion of the work, may have it either at 16 dollars in boards; or in a good and handsome binding, at twenty dollars payable on delivery. It will be completed during the summer 1805.

A MEDICINE extremely useful and efficacious for
 curing jaundice and bilious disorders, and removing that
 sinking, faint and distressed feeling at the stomach, diffi-
 culty of breathing, loss of appetite, and sleep, dull heaviness
 in the forehead of the day, weakness and trembling
 of the limbs, dizziness of the head, and yellowness of
 countenance, complaints common to jaundice and bilious
 people.

Also removing obstructions of the bowels, and of
 fine, choleric complaints, pukings, and purgings, indigestion,
 sick head ache, rheumatic complaints, &c. which
 arise from a collection of four bilious matter in the stom-
 ach, and at length restoring the constitution to strength
 and vigor.

They are also found very useful to carry off worms,
 and to cure rickety children, and may be used with safety
 in all constitutions, ages and sexes.

The many cures that have been effected in New Eng-
 land, by the above medicine (as may be seen in the bills)
 prevent the necessity of further recommendation.

REANIMATION.

WHEN the most important func-
 tions of life are suspended, and those who are in-
 valids by imprudence, inheritance, accident or
 disease, are tottering upon the brink of the grave,
 it is not in despair that relief is to be found.
 There is a medicine which has restored thousands
 from infirmity and misery to health and happi-
 ness, which is

THE AROMATIC LOZENGES OF STEEL.

Since this excellent medicine was first discovered
 by Dr. Bardwell, several thousand females have expe-
 rienced its salutary effects; many of whom had been re-
 duced to the brink of the grave having used every re-
 medy recommended as specific in those complaints, and
 had made every application to the faculty that could be
 devised. The following recent case is selected from a
 numerous list.

From Mrs. Eleanor Wadsworth, Pro-
 vidence, (R. I.)

Sir,
 We received yours and with much pleasure comply
 with your request, as my daughter has certainly re-
 ceived very great benefit from Dr. Bardwell's Aromatic Lo-
 zenges of Steel.

In the winter of 1802 my daughter, who is in her 17th
 year caught a very severe cold, which with the violent
 fever which accompanied it, confined her to her room up-
 wards of four months; during this period we paid for
 Doctors bills and consultations 150 dollars. The fever
 left her in the most deplorable, and debilitated state with
 hardly any use of her limbs, so that we were obliged to
 carry her from the bed to the chair. Being strongly per-
 suaded by the Doctor we went to Ball-Town Springs
 and stayed the season, and thought she gained consid-
 erable strength by the use of the waters; but by the fatigue
 of the passage (having very rough weather) she became
 as weak and her cough much worse than before. During
 the last winter her whole nervous system has been so ir-
 ritable, and her spirits so low and depressed, that death
 to her was desirable. In the latter end of January we saw
 an Advertisement recommending the Lozenges of Steel
 for similar complaints, we immediately purchased a pack-
 et of them, and before the whole of them were taken, they
 evidently produced a change in her system, which no medi-
 cine had been able to effect; we took for two
 more packets. In now fourteen days since the began-
 ning; she has laid aside her crutches, has been twice to
 horse back, and if the weather should prove favorable we
 intend coming to Peckskill early in April to stop until
 we go to Ball-Town Springs: from there we will send you
 our address, where with pleasure we will satisfy any
 enquiries.

Price one Dollar per Packet.

Particular directions for their use are sealed up with
 each box as the great benefit to be derived from them can
 only be secured by having them genuine, the public are
 requested to observe that the name of Thomas Stokes &
 Co. are affixed to each packet, without which mark of
 authenticity they are not genuine.

Dr. Hunter's genuine Antibilious Pills

For the prevention and cure of Yellow,

Bilious and Putrid Fevers.

Every experienced physician knows
 what dangerous disorders arise from a redundancy
 of bile in the habit; however salutary a due secre-
 tion of this fluid may be, yet a diffusion of it in
 the circulation is known, from its putrescent qua-
 lities, to bring on sudden and fatal fevers. The
 unparalleled success of Dr. Hunter's Antibilious

Pills, in curing, and particularly in preventing
 this dreadful disease, is universally known in the
 islands, and has induced the proprietor to appoint
 agents in all the mercantile towns in the United
 States, for the accommodation of the public.
 The Antibilious Pills are therefore, in an especial
 manner, recommended as a preventative, deserv-
 ing the notice of all persons going to the West
 India Islands, or any of those places infected with
 these fevers. Dr. Hunter has every possible reason,
 that can result from long and extensive experi-
 ence, for believing that a dose of these pills,
 taken once every fourteen days, during the pre-
 valence of our fall fevers, will prove an infallible
 preventative, and that, if taken in the early stages
 of these fevers, their use will very generally suc-
 ceed in restoring health, and frequently in cases
 esteemed desperate and beyond the power of com-
 mon remedies.

The operation of these pills is perfectly mild,
 may be used with safety by persons in every situa-
 tion, and of every age.

In sickly times and places a dose should be taken
 once a fortnight, and if there is reason to appre-
 hend personal danger, once a week.

Observe that the signatures of Messrs. Thos.
 Stokes and Co. are affixed to each box, without
 which mark of authenticity they are not genuine.

The genuine Scotch Itch Ointment.

The only medicine that cures this disagreeable disease
 by one application, so many thousands having experi-
 enced its efficacy; it is unnecessary to add any more argu-
 ments in its favor, but to caution the public that the name Tho-
 mas Stokes and Co. is affixed to each box, without this
 mark of authenticity, none are genuine.

Dr. Bardwell's genuine Eye Water.

A sovereign remedy for all diseases of the eyes; speed-
 ily removes inflammation, dimness, itching, and al-
 ways never fails to cure those maladies which frequently suc-
 ceed the measles, small-pox, and fever; and is an unpa-
 ralleled strengthener of a weak sight.

Dr. Hunter's genuine Antibilious Pills.

An agreeable and certain preventative of the predispo-
 sition to inflammatory and malignant fever, which prevails
 at particular seasons of the year. The rapid and increasing
 demand from every part of the United States, and the
 West India Islands, is the best evidence of their superior
 excellence.

CHAMBAUD'S Antasthmatic Lozenges.

A radical cure for coughs, colds, asthma and con-
 sumptions, difficulty of breathing, &c. &c.

Mr. CHAMBAUD, the sole proprietor of
 this medicine, has the satisfaction to announce that
 they have been the means of relieving many persons
 in a most precarious state of health. In common
 colds this medicine produces so salutary a perspira-
 tion that they generally are eradicated in a few
 hours. Coughing, being prolonged by that action,
 five symptoms termed the tickling in the throat, it
 shortens its duration by promoting sleep and strength-
 ening the constitution. Pulmonary complaints, af-
 fecting the breast and lungs; those affected with
 them experience an almost immediate relief. Asth-
 mas and confined consumptions have repeatedly been
 eradicated by them. Infants in the whooping-cough,
 and women during pregnancy, may take them
 without the least fear of danger, and with the
 greatest expectation of relief, nor can it be admini-
 stered at an improper season.

Dr. BARDWELL'S

Anodyne Essence, for all kinds of
 Head Aches.

THE renowned virtues of the Anodyne essence,
 is now so generally known, that it is no presumptu-
 ous in the Proprietor, to say, that Head Aches, aris-
 ing from whatever cause, or however violent, in-
 stantly submit to its penetrating power. This in-
 valuable Anodyne, has frequently succeeded after
 the best advice, and every other remedy had fail-
 ed; by its salutary operation, it infensibly promotes
 circulation and perspiration, and thereby prevents
 the return of the most obstinate periodical head
 aches.

SPRING PHYSIC.

DR. HUNTER'S Anti-Bilious Pills are unquestion-
 ably proved by simple experience to be the most effectual
 remedy, at the same time the most innocent, pleasant,
 and convenient medicine for the cure of every bilious
 eruption, leprosy, and other disorders originating from a
 corruptive state of the blood. The remarkable cure of
 Mr. Ellison, of Albany, who had been twelve years
 tormented with a most distressing scorbutic complaint, as
 also that of Thomas Johnson, a labouring man, in the
 service of Mr. Van Rensselaer, who was afflicted with a
 most horrid leprosy, must have convinced every one who
 has read the particulars of these cases, besides which, a
 variety of proofs of their efficacy, authenticated by per-
 sons of character and respectability are open to the ex-
 amination of every inquirer. These must naturally be
 supposed to have their due weight, and supercede the
 necessity of any further comment from the Proprietor,
 yet, he presumes to assert, that the real merits of this
 vegetable preparation will, on a fair trial, plead more
 forcible in our recommendation than any thing which
 can be said of it.

Where also may be had,

Atkinson's Worm destroying Lozenges.—These Lo-
 zenges not only destroy worms where they exist, but ef-
 fectually prevent their return. Those families who have
 followed Dr. Atkinson's advice, and used them in the
 Spring and Fall among their children, as their common
 physic, have now the happiness to find those children,
 which appeared sickly and consumptive, in the bloom
 of health, being entirely delivered from those dreadful
 vermin.

Sparta, Monni Pleasant,

March 27, 1803.

We hereby certify, that our daughter, about 4 years
 of age, has been very unwell and in a bad state of health
 for the last two years. We always suspected that she
 had worms, and had given her several worm medicines,
 without any good effect, so that we despaired raising her
 till she died. Hearing of some surprising cures being per-
 formed by Atkinson's worm destroying Lozenges, we
 purchased a packet of them, and administered them ac-
 cording to the directions. The first dose brought away
 only one worm, and with it a quantity of slimy, offen-
 sive matter; the second brought away four monstrous
 thick worms nearly half a yard in length, and the third

pose, a large quantity of slimy offensive matter. The
 vomiting and purging, with which she was frequently
 troubled have ceased—her appetite has become regular
 and has ever since enjoyed a perfect state of health for
 which we are entirely indebted to this excellent medicine.

DR. BARDWELL'S

Re-animating Solar Tincture, or Pabulum of Life.
 Of the cure of Consumption and Asthma. Disorder in
 the Stomach and Bowels, Convulsions, Cholera and Di-
 sentery.

Cautions in investigation, and attentive enquiry into
 the nature and laws of the animal economy, having long
 confirmed an opinion in the mind of the inventor, that
 all the maladies above mentioned, derive their origin
 from the same cause, indirect debility, or consequent
 weakness, the analogy of their source, by a natural in-
 ference suggested the idea of their removal by the same
 means; the result was the discovery of the Re-animating
 Solar Tincture, which after having been employed in
 thousands of instances, with the most unexampled and
 astonishing success, has obtained the warmest approbation
 of characters of the first respectability, both in and out
 of the profession; the proprietors can confidently recommend
 as one of the most certain, efficacious, and pleasant re-
 medies ever discovered by man or offered to the world.

Price, 1 dollar, and 1 dollar and 50 cents per bottle. The
 large bottle contains nearly two of the small. Copies
 Directions for their use are sealed up with each bottle.

Dr. Stoughton's Cordial Bitters, faith-
 fully prepared at the original warehouse, Lon-
 don.

This incomparable medicine has flood the test
 of universal approbation in Europe for near an hun-
 dred years, in the cure and prevention of,
 Loss of appetite, bad digestion, windy colic,
 urticaria, hysterical vapours, faintness and trembling,
 ague and fever, depressed spirits, foul breath,
 worms in children, scurvy, obstructions or stop-
 ages, bilious fevers, sick fits, &c. &c.

These Bitters being now generally used in
 taverns and public places, and universally acknow-
 ledged by all who have tried their effects, to be su-
 perior to the compositions formerly imposed in
 imitation thereof; the proprietor hath reduced the
 price to those who purchase largely above fifty per
 cent. Directions will be printed on the Bottles,
 and which will be also sealed, in order to detect
 counterfeits and spurious pretenders, who will all
 tell you, they make the genuine Stoughton's Bit-
 ters; and in order to impose their trash on the pub-
 lic, they sometimes copy a part of the true adver-
 tisement and directions.

Specific Drops for Deafness.

FOR many years have these drops been used with
 amazing success, in DEAFNESS & HARDNESS OF
 HEARING. Those who are unacquainted with the
 great relief afforded by this valuable medicine, are ear-
 nestly recommended to trial. Few are the cases in which
 it has not been of great service, and very often perfected
 a complete cure.

Copious directions for the use of the Specific Drops
 for Deafness are sealed up with each bottle. Price one
 dollar.
